▼ HOW TO ORDER

REQUEST A QUOTE

Special tools are made to your drawing and quoted individually. Stocked tools can be bought online and shipped across India.

01
THE DRAWING
PDF, DXF, DWG, STEP or IGES, with dimensions, tolerances and surface finish. A sample or a photo of the tool you use today also works.

02
WORKPIECE MATERIAL
Grade and condition, for example A356 aluminium, GG25 cast iron or hardened steel with its HRC hardness.

03
MACHINE AND INTERFACE
Spindle interface (HSK-A63, HSK-C, BT, CAT), coolant through the tool or not, and maximum spindle speed.

04
THE OPERATION
Roughing, semi-finishing or finishing; the bore or thread tolerance you hold (for example H7) and the finish you need.

05
QUANTITIES
This order, and the expected annual volume if the tool is for a running production line.

06
DELIVERY AND DOCUMENTS
Delivery city and country, and any documents your receiving or quality team needs with the shipment.

WHAT HAPPENS NEXT

01
WE REVIEW YOUR REQUEST
Our team reads the drawing and the operation and comes back with any questions before quoting.

02
YOU RECEIVE A QUOTATION
Price and lead time for the tool, built in our Bengaluru unit or sourced from manufacturers across India.

03
ORDER, MAKE AND CHECK
On your confirmation the tool is made or sourced, checked, and dispatched to the address you give.
